# There's a reason over 60,000 businesses use Gusto

## We make HR easier

Running payroll doesn't have to take hours. Our refreshingly intuitive software helps you check off all your administrative tasks as quickly as possible so you can spend more time on strategic projects. Plus, employees get their own login so they don't have to ask you for access to their paystubs, time off balances, and more.

## Compliance is our top priority

Payroll compliance, benefits regulations, and HR laws can be confusing. They're always changing, and even the smallest misstep can lead to steep fines. With our all-in-one platform, Gusto helps you navigate the complexities of each regulation that impacts your company. We proactively keep you updated anytime a law changes, and even automate most of the compliance tasks for you.

✓ HIPAA Compliant

✓ ACA Compliant

✓ ERISA Compliant

## Support you can always rely on

Big or small, your team deserves the best care. Our friendly customer support teams in Denver and San Francisco will go out of their way to help you and your team by phone, email, or chat. We also have free guides, white papers, training videos, and a comprehensive Help Center you can access at any time.

"Gusto gives a small business the same resources as a Fortune 500 company."

Gabriel Shahin · CEO, Falcon Wealth Planning

"Gusto has allowed my small company to offer big-time benefits without an HR department."

Tom Sheahan · CEO, Red Oxygen
